

New Zealand: Vodafone plans released

Tuesday, 08 July 2008

Vodafone has confirmed that the iPhone will start at \$199 on a two-year contract. However, that price only applies on the top plan. If you opt for the base plan the 8GB phone will cost you \$549 and the 16GB phone will cost you \$699.

That's $\$80 \times 24 \text{ months} + \$549 = \$2469!$ - For the cheapest plan!

Vodafone will offer three iPhone plans. The cheapest, at \$80 per month, offers 250MB of data. The next plan up offers 500MB of data for \$130 per month. The top plan will provide 1GB of data for a whopping \$250 per month.

The plans include voice and text as well as data.

The iPhone will also be available on other post-pay mobile plans from Vodafone as long as you sign up for a 200MB or 1GB mobile data plan. However, what the purchase price for the iPhone itself will be on these plans has not been announced.
