

Official: Telstra Staff 3G S Bridging Module Booklet

Sunday, 21 June 2009

We've been sent this Telstra 3G S booklet reserved for internal staff training in regards to the 3G S release next week. A few highlights include:

- The two new devices will be available on the current iPhone Phone Plans, Phone Plan Ultimate and Consumer Next G/3GCap Plans.
- This device will be able to be updated with iPhone OS 3.0 software. It will also move to EOL from June onwards. It will remain on handset schedules until all remaining stock is sold as per the standard EOL process.
- Visual Voice Mail - This product is not available
- The device comes as a "bricked" device. This means the device will not work until it is tethered to iTunes. The iPhone Plan, Phone Plan Ultimate, Consumer NextG/3G Cap Plans, can be connected but the device will not be functional until it is tethered the device to iTunes.
- The cost of the iPhone to the customer is different depending on the plan level and which iPhone device the customer selects; current iPhone 3G 8GB, iPhone 3G S 16GB or iPhone 3G S 32GB. The upfront payment is charged on the first bill as a lump sum.
- If a customer wants to unlock a device that they have purchased out-right and is not on an iPhone Plan, Phone Plan Ultimate, Consumer NextG/3G Cap Plans contract they will need to pay a fee of \$150.
