

## Apple posts iPhone 3G Guided Tour

Tuesday, 01 July 2008

Apple just posted a guided tour for the new iPhone 3G. In the video, our old friend Bob from the original iPhone walkthrough covers "What's new in the iPhone 3G" and the iPhone 2.0 software update.

The iPhone 3G isn't due out until July 11th, but it looks like Apple is, once again, trying to start up the hype train. You can watch the video by heading over to Apple's iPhone website.
